

Grand River Dam Authority
Schedule OLA-175
Outside Lighting
Effective 01/01/2010

Application of this Rate

This service is available to all Customers where a power source of 13,800 volts, or lower, is available for power to the light.

The Authority will furnish, operate and maintain one 175 watt mercury vapor light with the necessary operating power, provided that only one span of conductor from the source of power per light will be provided by the Authority.

Rate: \$18.50 per light, per month
