

**Grand River Dam Authority**  
**Schedule OLB-1000**  
**Outside Lighting**  
**Effective 01/01/2010**

***Application of this Rate***

This service is available to all Customers where a power source of 13,800 volts, or lower, is available for power to the light.

The Authority will furnish, operate and maintain one 1,000 watt mercury vapor light with the necessary operating power, provided that only one span of conductor from the source of power per light will be provided by the Authority.

The power source will be from the Customer's low voltage service on the Customer's side of the billing meter.

Rate: \$27.00 per light, per month
