

**July 13 - 15, 2021**  
**GRDA Ecosystems and Education Center**  
**420 OK Hwy 28**  
**Langley, OK 74350**

We are a diverse group of water quality, water management, conservation and education professionals and we want to share our passion for Oklahoma's water resources with you!

This three-day workshop is designed for teachers and environmental educators who will participate in hands-on learning experiences that can easily be used in the classroom.

Participants will also learn about point and non-point source pollution, erosion, stream and lake ecology and programs the sponsoring organizations can bring to your school or education event.

Some of the activities are outside and on the water so come prepared. An email with instructions on what to bring and wear will be sent out two weeks prior to the event.

**Early Bird Registration (ends May 31, 2021) \$75**  
**Registration after May 31, 2021 \$100**  
**Registration Ends June 15, 2021**  
**Registration is limited to 20 people**

Registration includes lodging, meals, Illinois River float trip, t-shirt, Grand Lake watershed specific curriculum and other educational materials. Certificates for 24 hours of Professional Development will be provided at the end of the workshop.

To register visit <https://www.eventbrite.com/e/riverology-101-tickets-149559892665> or scan the QR code

**If you teach 4th grade in the Grand Lake Watershed (i.e. Craig, Mayes, Ottawa, or Delaware County) you may qualify for a subgrant associated with this workshop. Ask us for details!**
