

## RFQ 2201 Questions & Answers

(Answers in red)

- 1) Please provide the need by date for these structures.  
These will be going into our stock for future projects as needed so there isn't a require by date. Just the sooner the better.
- 2) Do you accept steel galvanized pole equivalent instead of Douglas Fir wood poles required in this bid package? Please clarify.  
These poles are for stock replenishment, and we require Douglas Fir wood product at this time.
- 3) Does this RFQ include Buy American provision?  
We do not have a buy American provision included in this RFQ.
